

Tablica interaktywna TT-BOARD 90 Pro

Product features

Newest Avtek interactive whiteboard offers the best functionalities when it comes to IWBs: IR touch technology, 10 touch points and PolyVision e3 ceramic surface with lifetime warranty enclosed in a solid, aluminum frame. Those features allows TT-BOARD 90 Pro to be used both as a regular dry erase whiteboard as well as great interactive tool. TT-BOARD 90 Pro is fitted with two sets of hotbars on each side containing most used functions and one user-definable key, interactive pentray with 3 colors and an eraser.

In TT-BOARD 90 Pro package there is also a brand new Avtek software, Avtek Interactive Suite, offering lots of advanced functions.

- Whiteboard can be used as regular touch screen thanks to IR touch technology which allows use with any kind of pointer
- 10 touch points allows multiple students to work at the same time without worrying about touch detection
- PolyVision** ceramic surface gives important benefits:
 - very high durability and dry eraseability makes it easy to use this interactive whiteboard as a regular dry erase whiteboard without damaging the surface
 - allows using magnets on the surface
 - displays high quality image from a projector
 - great for classrooms because of it's advanced dry erase function and very high damage resistance
- Hot bars on each side of the whiteboard allows for quick and efficient access to most used functions, which makes use of the board more intuitive
- Plug&Play standard means that it doesn't need driver to work with Windows XP, Vista 7, 8.1 oraz 10 (32 i 64 bity) systems
- Interactive pentray operate 3 colors of stylus (black, red, blue), an eraser function and also includes a telescopic pointer
- Software in english language version

Most up to date version of software and driver available here [Avtek Interactive Suite](#)
