CFE820 Features

- ✓ With up to **512GB** of storage capacity
- ✓ Read/write speeds of up to **1700MB/s** and **1300MB/s**, idea for **4K recording**.
- ✓ Exclusively for professional photographers using **DSLR** and **advanced camcorders**.

- ✓ Tested to withstand extreme conditions. Operate in temperatures ranging from **-10°C (14°F)** to **70°C (158°F)**
- ✓ Backward-compatible with particular select XQD cameras that feature firmware enabling CFexpress

*Please note that the 4K RAW format is currently not fully supported.

*Compatibility with specific XQD® memory cards varies due to camera firmware.

*Please check whether the camera supports CFexpress socket and whether the supported socket version is CFexpress Type B.

RecoverRx

Transcend's exclusive RecoverRx software features a user-friendly interface that allows you to search deep within a storage device for traces of erased files that can be rescued; the files include digital photos, documents, music and videos.

Recovery

Provides basic recovery and advanced recovery functions to bring the lost digital photos, documents, music and videos back.

Formatting

Supports formatting SD memory cards, CompactFlash memory cards, and StoreJet devices.

*Works only on Windows OS
