Datasheet

NEC MultiSync® EA241F Ultra-Narrow Bezel - 23.8-inch FHD with full connectivity

NEC's new 23.8-inch desktop display comes with the features needed to maximise office productivity. This includes its outstanding visual capabilities, class leading ergonomics and full range of connectivity that allows you to connect the display to existing platforms.

The new display is entering the most demanding display market in terms of size. The EA241F's sleek look makes it ideal for multi-screen usage while also adding a touch of elegance to the office space. The three-sided narrow bezel design reduces its footprint without comprising on screen size. The display also ensures best in class ergonomics that meet all safety regulations. The height adjusts from the desk level up to 150 mm, which puts it in step with the new standards for an ergonomic workspace.

Benefits

In-demand display size - the popular 23.8" display with Full HD resolution is the perfect size for busy office workspaces.

Maximum connectivity flexibility - the complete connectivity range (VGA, DVI, DP, HDMI and USB) allows full flexibility for users to connect the display to existing platforms.

Best in form and function - future-ready design with 3-sided ultra-narrow bezel, available in black or white, complementing a fresh professional office interior.

Maximum attention to health and well-being - the outstanding ergonomic height adjustment from 0 to 150 mm; eye pleasing built-in Low Blue Light and Flicker-Free technology; plus integrated ambient light sensor all combines to tailor the perfect individual setup to boost productivity.

Auto-Adjust Power Consumption - to minimize unnecessary power usage, the Human and Ambient Light Sensors adjust the display brightness according to user presence and room lighting conditions.

Ease of multi-display control - manage the settings of up to 5 displays in a multi-monitor configuration via the master display with ControlSync® technology.
