Режим на излъчване

Режимът на излъчване позволява на високоговорителя да приема аудио от източник на излъчване без ръчно вдвояване. Просто активирайте режима на високоговорителя и той автоматично ще се свърже с близките аудио излъчвания. Това позволява синхронизирано аудио на няколко поддържани устройства, което е идеално за споделяне на музика или съобщения.

Egyszerűen engedélyezze a módot a hangszórón, és az automatikusan csatlakozik a közeli hangos sugárzásokhoz. Ez lehetővé teszi a hang szinkronizálását több támogatott eszközön, ami tökéletes zene vagy bejelentések megosztásához.
